durfill 60 in tank truck (material for silo)bulk material, pickup by the customer
FCA D-56642 Krufft/Germany Incoterms 2010**1,0 metric ton durfill 60 bulked good****546,00 €/ton****delivery in silo truck**

delivery in silo truck is very expensive, because the German logistic companies have difficulties to get back freight. Up to our experience, paper bags are more economic over large distances.

durfill 60 Big BagPackage with circa 1 to durfill 60 incl. costs for the bag
pickup by the customer FCA D-56642 Krufft/Germany Incoterms 2010,
stuffed in a provided 40" container for oversea transport

Transport costs see paper bags, 1 BigBag = 1 palette

1,0 metric ton durfill 60 BigBag**575,00 €/ton****Delivery Time:** Paper bags are on stock. Bulk material for silos and bigbags is produced on due date and needs an advanced announcement of 3 weeks.**VAT:** No German VAT for delivery outside of Germany.**Delivery Conditions:** Incoterms 2010, all taxes, duties, fees or similar charges shall be borne by the buyer.**General Terms and Conditions:** See the following page No. 2

Terms of Delivery: For the international transport of goods, the provisions of the Convention for road freight transport (CMR) are mandatory. Delivery conditions acc. INCOTERMS 2010. The trucks must be deloaded by the client by the use of a fork lift within one hour. The street should be accessible for heavy trucks.

Terms of payment: All items have to be paid in total in advance (advanced payment).

Export: Toll (tariff, custom duties), custom clearance CCF, import turnover tax VAT and other dues have to be managed and paid by the client. If the delivery destination and the registered office of the commercial client are outside of Germany, no German value added tax VAT is charged. In order to avoid German taxes for clients from the European Union they a) have to submit their international VAT-Ident-Number to us and b) the transport has to be organized by us in durcrete's responsibility. Otherwise German VAT-Tax has to be charged.

Bulked Material for Silo: It must be guaranteed, that during the filling of the silo, the ordered quantity may be completely blown into the silo. If this is not possible, the purchaser has to bear all costs relating thereto.

Date of Delivery: Material in bags is usually on stock. Tank-Trucks are filled just in time with fresh produced material, so the delivery date has to be noticed 3 weeks in advance. Due to custom clearance, outside the European Union delivery dates and deadlines can be given only as ETA (Expected Time of Arrival). Delay in delivery does not harm the supplier, if he is not responsible for. This may happen, when the operation of the supplier or somebody working for them in an operation or other agents is disturbed by force majeure or other unavoidable or unforeseen circumstances such as strike or lockout. A limited compensation (liquidated damages) for damage including consequential damages is agreed with 0.5 % caused to each full work week of delay and a total of maximum 5 % of the value of the relevant (partial) delivery.

Palette and Disposal: palettes and other transport materials will be billed to the customer (15.00 €/palette), unless it returns undamaged and without freight costs within four weeks. Bags, shrink films and other disposable packaging shall become the property of the purchaser and will not be returned. Shrink films are no weather protection.

Quality: There are so many applications and possibilities of this new material that everybody needs to check the feasibility of every application. The seller shall not be liable for the product being fit for a particular purpose. Seller is under no duty to advice the buyer about the product and its applications. We are only responsible for the quality of the basic material and tolerances, defined together in a contract or this offer. The products are manufactured using natural raw materials and can therefore be subject to certain variations. The material also contains admixtures of organic origin. Quantity variances can only be contested, if the identified shortfalls exceed 3 %. The information given in catalogs, brochures, data sheets, images, web pages and other media, pattern pieces and samples are for information only and are no confirmation of quality.

Defects Liability: Claims for defects and damage claims expire after 6 months. If compensation has to be done, the maximum amount of damages including consequential damages is limited in each case to the amount of the value of the order up to a maximum of 3 Mio EUR. The seller is only obliged to pay damages for breach of contract if it breached its obligations owed to the buyer under this contract with intent or gross negligence.

Documents: See also our documentation "materialdata durfill" and the "safety data sheet durfill"

Patents: Please inform yourself about patents pending in your country on the technology of filling machine elements.

Contract conditions: This sales contract is governed by the UN Convention on contracts for the international sale of goods (CISG), any question not covered will be governed by the law of Swiss. Incoterms 2010 are agreed. Place of performance is D-65549 Limburg/ Lahn in Germany. Contract language is English with the metric system.
