Delivery Time: single packages within a few days, larger quantities within 2 weeks.

VAT: No German VAT for delivery outside of Germany.

Delivery Conditions: Incoterms 2020, all taxes, duties, fees or similar charges shall be beared by the buyer.

General Terms and Conditions: See following page no. 2.

Terms of Delivery: For the international transport of goods, the provisions of the Convention for road freight transport (CMR) are mandatory. Delivery conditions according to INCOTERMS 2020. The trucks must be unloaded by the client by the use of a fork lift within one hour. The site street should be accessible for heavy trucks.

Terms of payment: All items have to be paid in total in advance (advance payment).

Export: Toll (tariff, custom duties), custom clearance CCF, import turnover tax VAT and other dues have to be managed and paid by the client. If the delivery destination and the registered office of the commercial client are outside of Germany, no German value added tax VAT is charged. In order to avoid German taxes for clients from the European Union they a) have to submit their international VAT-Ident-Number to us and b) the transport has to be organized by us in durcrete's responsibility. Otherwise German VAT-Tax has to be charged.

Date of Delivery: Material for single packages is usually on stock. Due to custom clearance, outside the European Union delivery dates and deadlines can be given only as ETA (Expected Time of Arrival). Delay in delivery does not harm the supplier, if he is not responsible for. This may happen, when the operation of the supplier or somebody working for them in an operation or other agents is disturbed by force majeure or other unavoidable or unforeseen circumstances such as strike or lockout. A limited compensation (liquidated damages) for damage including consequential damages is agreed with 0.5 % caused to each full work week of delay and a total of maximum 5 % of the value of the relevant (partial) delivery.

Pallet and Disposal: pallets and other transport materials will be billed to the customer (15.00 €/palette), unless it returns undamaged and without freight costs within four weeks. Shrink films and other disposable packaging shall become the property of the purchaser and will not be returned.

Quality: There are so many applications and possibilities of this new material that everybody needs to check the feasibility of every application. The seller shall not be liable for the product being fit for a particular purpose. Seller is under no duty to advise the buyer about the product and its applications. We are only responsible for the quality of the basic material and tolerances. The products are manufactured using natural raw materials and can therefore be subject to certain variations. The information given in catalogs, brochures, data sheets, images, web pages and other media, pattern pieces and samples are purely informative and represent no proof of quality.

General remark: durcrete®cell is specially designed for applications in machine engineering. The data provided are of a general nature and may therefore not be suitable for a specific application. As a result, tests, calculations, and experiments on a case-to-case basis are required prior to use of the products.

Defects Liability: Claims for defects and damage claims expire after 6 months. If compensation has to be done, the maximum amount of damages including consequential damages is limited in each case to the amount of the value of the order up to a maximum of 3 Mio EUR. The seller is only obliged to pay damages for breach of contract if it breached its obligations owed to the buyer under this contract with intent or gross negligence.

Patents: Please inform yourself about patents pending on the technology of filling machine elements in your country.

Contract conditions: This sales contract is governed by the UN Convention on contracts for the international sale of goods (CISG), any question not covered will be governed by the law of Swiss. Incoterms 2020 are agreed. Place of performance is D-65549 Limburg/Lahn in Germany. Contractual language is English with the metric system.

1st of February 2021
